# OLIVA FARMACIA

“The Farmacia has always been a significant part of my life.”

The oldest memory of my great grandmother, Nonna Geaziella, is of her taking me to my first pharmacy. It just so happens that this particular pharmacy has been open since 1221, in Florence Italy. My Nonna also proudly told me that the first public pharmacy was actually opened in Sicily and she would explain to me that it was very important

to take care of myself BOTH inside and outside.

Some of the oldest ideas of how to be and live healthy are still with us today. Olive Oil (the oldest remedy) has always been the cornerstone of my family's beliefs.

I have created this collection with this powerful idea in mind. Combining the ancient remedies found in Ginger Root these products will leave your skin beautifully tones and smooth.

## NOBILITY CLASSIC – SENSATION FOR THE SOUL

Nobility was inspired by the nobles during the Medieval period in England. Back in those times, only the nobles and royals may have bathed more often than the lower class. The upper class believed bathe was away to restore health and to enhance their quality of life. Sporadically, the nobles passed a French vineyard and were overwhelmed to see the farmer's silky and shiny skin. It inspired the nobles to formulate their own beauty recipes.

## PRESTIGIOUS CLASSIC TOILETRIES

Not until 19th century, bathing became a part of living in Europe.

By adding other plants and fruits scents to promote the optimum bathing comforts, Nobility is enhanced with grape seeds extracts; rich in vitamin E, green tea, algae extracts, lemon extracts and full of antioxidants to help purify, moisturize, and keep the skin glowing.

Nature's embrace allowing serenity  
to reset your rhythms

According to traditional Chinese beliefs and culture, everything in the universe is generated by the combination of and movement between five elements: wood, fire, earth, metal, and water. So the characteristics of these five elements manifest in all things in the universe. Raised in a small town in France, the creator of M Spa was fascinated by traditional Chinese philosophy and culture. The insights of the Five Elements theory have inspired him in the philosophy of "correspondence between man and universe". M Spa has been created with the portrait of the Five Elements theory, enriched with natural essential oils.
